TheMcCombsSchool of Business has negotiated a number of licenses for student use. You will need to install Microsoft Office (free Office 365 subscription) first if you are installing Decision Tools on your computer - The simple answer is: don't. Windows default settings for DEP are just fine with Palisade software, but our software will not work with certain non-default settings. DEP policy can also be manipulated independently of the Windows policy, for example by using Microsoft's Enhanced Mitigation Experience Toolkit (EMET), an optional Windows component. We don't recommend changing DEP policy via EMET either. Manufacturing is facing a multitude of challenges. Consumer demand, production margins, and the economics of the supply chain are disrupting the traditional business models. Palisades complete decision, data and risk analysis toolkit can help manufacturing companies dominate their segments of the value chain by providing insight into innovative manufacturing models, resource planning strategies, speed-to-market and customer engagement to take advantage of new opportunities.
